Should the state impose a tax of \$10.00 per bullet tax for all large capacity ammunition defined by the 1994 Public Safety and Recreational Firearms Use Protection Act, a subsection of the Violent Crime Control and Law Enforcement Act of 1994 to fund expanded mental health services, adolescent mental health services, and violence prevention education ?

The tax will:

- Provide funding to qualified hospitals and mental health facilities for mental health services and mental health awareness education .
- Allocate funding to violence prevention programs , enforcement of gun laws, and research, prevention, and treatment of various mental health conditions .
- Exempt ammunition designated for use by police and law enforcement officials .

Thank you again for your time and service to Colorado.
